CCP GLOBAL
THE GLOBAL ASSOCIATION OF CENTRAL COUNTERPARTIES

26 June 2026

PRESS RELEASE

The Global Association of Central Counterparties held its Annual General Meeting 2026 and related events in Amsterdam from the 23rd to 25th of June 2026.

This year's CCP Global Annual General Meeting (AGM) week began with insightful keynote addresses by Denis Beau from Banque de France ([link](#)), followed by Tajinder Singh from IOSCO. A workshop on tokenization was held later that day, bringing together CCP Global members and regulatory authorities for a joint discussion on the topic.

The Annual General Meeting took place on the 24th of June, featuring updates from the four Working Committees and a presentation from CCP Austria as part of their application to convert from Observer to Primary Membership. During the meeting, members approved CCP Austria's conversion to Primary Membership, as well as the minutes from the Special General Meeting held in December of last year, among other items. That afternoon, CCP Global members continued to have productive conversations through a discussion session on AI and a workshop on general business losses/non-default losses held for CCP Global members only.

The following day, representatives from participating CCPs, together with lead regulators and authorities, gathered for the workshop on the CCP Global International Default Simulation 2025 (CIDS 2025) to exchange views on the outcomes of the exercise from last November. The AGM week concluded with a session on the outlook of the Association, led by the CCP Global Officers.

"The meetings and workshops during this year's AGM were valuable opportunities for the Association to convene and consider the major developments in the industry. It was a pleasure to engage with members and authorities to sharpen our focus for the rest of the year," said Timothy Cuddihy, Chair of The Global Association of Central Counterparties.

"We are grateful to the members and regulators who took part in this year's AGM. The conversations and collaboration were inspiring, and we look forward to continuing this momentum when we next bring together our global CCP community," said Teo Floor, CEO of The Global Association of Central Counterparties.

ABOUT CCP GLOBAL

CCP Global is the global association for CCPs, representing members who operate more than 60 individual CCPs globally across Europe, the Middle East, and Africa (EMEA), the Americas, and the Asia-Pacific (APAC) regions.

CCP Global promotes effective, practical, and appropriate risk management and operational standards for CCPs to ensure the safety and efficiency of the financial markets it represents. CCP Global leads and assesses global regulatory and industry initiatives that concern CCPs to form consensus views, while also actively engaging with regulatory agencies and industry constituents through consultation responses, forum discussions and position papers.
